

Hello Ms. Vysoká,

As your Google Cloud partner we're excited for you that your email address will run from the most modern and best cloud in world.

diana@vysoka.io

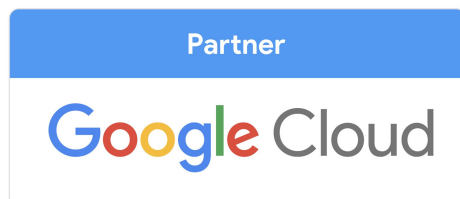

is going

Sincerely,

Dávid Kováč

CTO & Senior Google Product Expert
Adante Systems

Hello Ms. Vysoká,

As your valued Google Cloud partner we would like to provide your account diana@vysoka.io with complimentary advanced security:

Universal 2 factor authentication security key

Each Security Key has an individualized secure chip which performs cryptographic functions triggered by a simple touch of the key. You never see the details, but behind the scenes FIDO U2F Security Key provides a unique public and private key pair for each application it protects. Only those keys can correctly complete the cryptographic challenge required for login.

Sincerely,

Dávid Kováč

CTO & Senior Google Product Expert
Adante Systems
